

(TMI Focus, Vol. XI, No. 2, Spring 1990)

EXPLORING TOGETHER

Reflecting on our own, private experiences with Hemi-Sync tapes is enlightening, provocative— even life-changing. How supportive it can be to share this reflection with others who have had their own Hemi-Sync experiences, who "speak the language," and who are journeying on their own explorations. Hemi-Sync users in some parts of the country have taken steps to bring this powerfully reinforcing opportunity into their lives. One GATEWAY EXPERIENCE participant, for example, requested names of others in her area who were working with that series, or who had attended a GATEWAY VOYAGE at the Institute. After receiving from TMI a list of those who had given permission for release of their names for networking purposes, she contacted all who lived within a reasonable driving distance and invited them to spend a day together. Seven teen enthusiastic people came with tapes, players, and headphones; had a wonderful and enriching time; and planned their next mutual exploration.

You can initiate such groups, too. Let us know that you are willing to be a contact person for your city or region. We'll publish your name and phone number in the TMI FOCUS, asking readers in your area to call you about their interest in an Exploring group. A notice can also be posted at your local alternative book/tape shop, natural food store, library, or other likely places where Monroe tape buyers might see it. A GATEWAY OUTREACH Trainer in your area is another excellent resource for spreading the word.

We do ask that you tell us once an Exploring group is established, so we may inform people from your area to contact you.

Think about it. And happy exploring!
